

**CROP WEATHER WATCH
GROUP (CWWG) MEETING
HELD ON 03.02.2025**

**Agricultural Statistics Division
Department of Agriculture & Farmers Welfare
Ministry of Agriculture & Farmers Welfare**

Summary Points of the CWWG meeting:

I. Preliminary Report of area coverage under Rabi season

Rabi crops:

- As on 31.01.2025 area sown under Rabi crops is 661.03 lakh ha as compared to 651.42 lakh ha during the corresponding period of last year.
- Sowing Status of Wheat: As on 31.01.2025, area of 324.88 lakh ha has been sown under wheat this year against the previous year area of 318.33 lakh ha while the normal area of wheat is 312.35 lakh ha.
- Sowing status of Rapeseed & Mustard: As on 31.01.2025, an area of 89.30 lakh ha area has been sown under mustard against the previous year area of 91.83 lakh ha while the normal area under Mustard is 79.16 lakh ha.
- Sowing status of Jowar: As on 31.01.2025, the area covered under Rabi Jowar is 24.35 lakh. Sowing is almost completed for the current season.

Rabi Horticulture Crops :

- For Onion, Potato and Tomato, an area sown has been reported by the major producing States, 9.62 lakh ha, 19.81 lakh ha, 2.15 lakh ha as against total sown area of 8.01 lakh ha, 19.49 lakh ha, 2.35 lakh ha, respectively in the last year.

II. Weather:

- Isolated light rainfall/snowfall is likely over the Western Himalayan Region on 3rd February 2025, with scattered to fairly widespread light to moderate rainfall/snowfall expected on 4th and 5th February under the influence of the second Western Disturbance (WD). A fresh WD is likely to affect Northwest India from 8th February, bringing isolated to scattered light to moderate rainfall/snowfall over the Western Himalayan Region on 8th and 9th February.
- A gradual rise in minimum temperatures by 2-3°C is likely over the plains of Northwest India during the next 3-4 days and a similar rise is expected over Maharashtra in the next 2 days, with no significant change thereafter.
- No significant change in minimum temperatures is expected over West and Central India during the next 24 hours, with a 2-3°C fall likely over these regions in the following 3 days.
- Overall, rainfall is likely to be above normal over south Peninsular India and normal to above normal over northeast India during the week.

III. Rainfall distribution:

- All India seasonal cumulative (01st Jan 2025 – 03rd Feb 2025) rainfall in % departure from its Long Period Average (LPA) was (-)70%, with East & North East-India (-)49%, North-West India (-)79%, Central India (-)97% and South Peninsula (-)10%.

IV. Water Reservoir Status:

- As on 30th January, 2025, the total live water storage in 155 important reservoirs across the country (monitored by CWC) is 114.914 Billion Cubic Meter, which is 64% of total live storage capacity (180.85 BCM).
- The current year's storage is nearly 121 percent of last year's storage and 116 percent of the average storage of the last ten years during the corresponding period.
- The overall storage position is better than the corresponding period of last year in the country as a whole and is also better than the Normal storage during the corresponding period.

V. Groundwater Levels Scenario

- About 66.6% of the total monitoring wells show depth to water level in the range of 0 to 5 m below ground level and 29.1% show depth to water level in the range of 5 to 10 m below ground level. As per decadal water level fluctuation with a mean (August 2014 to 2023) and August 2024 analysis, 64.9% of monitoring wells (8199) show a rise whereas 35.1% (4435) show a fall in August month.

VI. Seeds:

- For Rabi 2024-25, availability of certified/ quality seed in the country is 337.98 lakh quintals against the requirement of 307.07 lakh quintals indicating an overall surplus of 30.90 lakh quintals of seeds.

VII. Fertilizers:

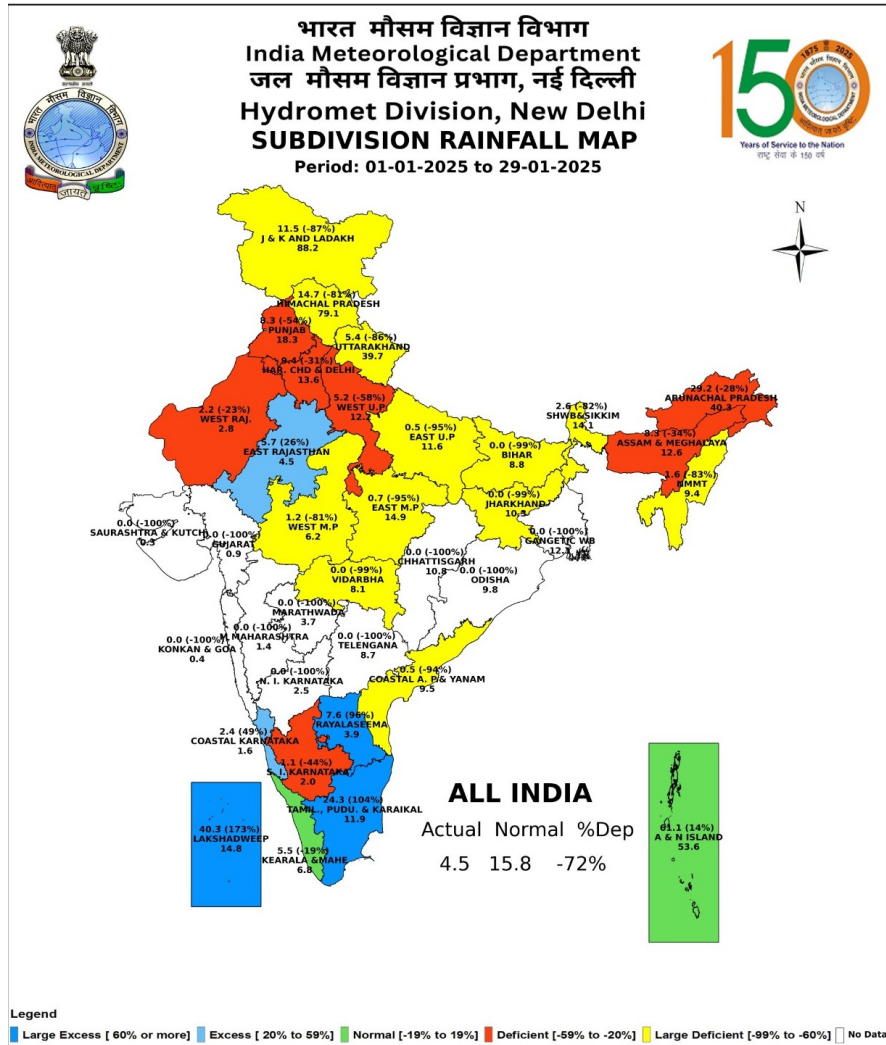

- Fertilizers position is stated to be comfortable in all products.

VIII. Pests & Diseases:

Over all intensity of pests and disease remained below Economic Threshold Level (ETL) and no major pest incidence was recorded.

Details of each sector have been enclosed at Annex.

WEATHER OUTLOOK

01st Jan to 29th Jan, 2025:

Legend

Large Excess [60% or more] Excess [20% to 59%] Normal [-19% to 19%] Deficient [-59% to -20%] Large Deficient [-99% to -60%] No Rain [-100%] No Data

NOTES :

- a) RainFall figures are based on operation data.
b) Small figures indicate actual rainfall (mm), while bold figures indicate Normal rainfall (mm).
c) Percentage Departures of rainfall are shown in brackets.

- During the week (23 Jan 2024 - 29-01-2025), large deficient rainfall was observed, as compared to Long Period Average (LPA) by 95%. Cumulative seasonal rainfall (01 Jan to 22 Jan 2025) is lower than LPA by 72%.

Rainfall Forecast:

30th Jan – 05th Feb 2025

- Two fresh **Western Disturbances** are likely to affect Northwest India between 01st to 03rd February, 2025. Under the influence of these systems.
- Scattered to fairly widespread light to moderate and isolated to scattered rainfall/snowfall activity likely over over Himachal Pradesh during 30th January- 05th February, Uttarakhand during 01st February-05th February and isolated to scattered light to moderate rainfall over Punjab, Haryana during 31st January- 05th February, Uttar Pradesh, Rajasthan during 03rd -05th February.
- Overall, rainfall is likely to be above normal over south Peninsular India and normal to above normal over northeast India during the week.

06th Feb – 12th Feb 2025

- No active western disturbance is likely to influence northwest India during the week. However, due to feeble Western disturbances, light/moderate isolated to scattered rainfall/snowfall likely over Western Himalayan Region during some/many days of the week.
- Light/moderate isolated to scattered rainfall is also likely over northeast India during some days of the week.
- Under the influence of easterly winds from Bay of Bengal, isolated to scattered rainfall likely over South Peninsular & adjoining central India during some days of the week.

- Overall, rainfall is likely to be normal to above normal over parts of central India and northeastern states; below normal over rest parts of the country during the week.

Temperature Forecast:

30th Jan – 05th Feb 2025

- Gradual rise in minimum temperatures by 2-3°C likely over the Northwest, East, Central and West India during 1st half of the week and no significant change thereafter.
- No significant change in minimum temperatures likely over rest parts of the country.

06th Feb – 12th Feb 2025

- Minimum temperatures are likely to be between 4-8°C over Punjab, Haryana, Chandigarh & Delhi and north Rajasthan and above 8°C over rest parts of the country during the week.
- Minimum temperatures are likely to be near normal or slightly below normal by 1-2°C over most parts of the country during the week.
- There is no probability of cold wave conditions over any part of the country and there is less probability of significant dense fog over any part of the country.

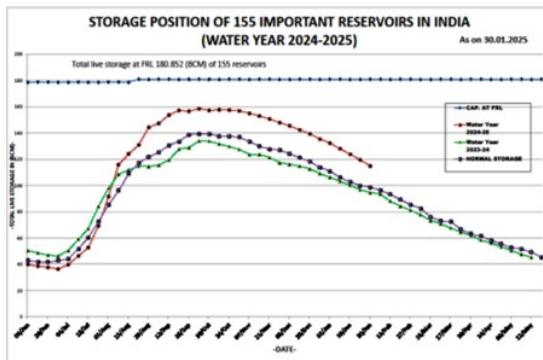

For more details login to IMD website.

RESERVOIR STORAGE (as on 30th January, 2025)

- Current live storage in 155 reservoirs was 114.914 BCM (64%) of total live capacity of 180.85 BCM.
- 143 reservoirs having storage more than 80% of normal storage.
- 06 reservoirs having storage 51% to 80%.
- 04 reservoirs having storage 31% to 50%.
- 02 reservoir having storage up to 30 %.

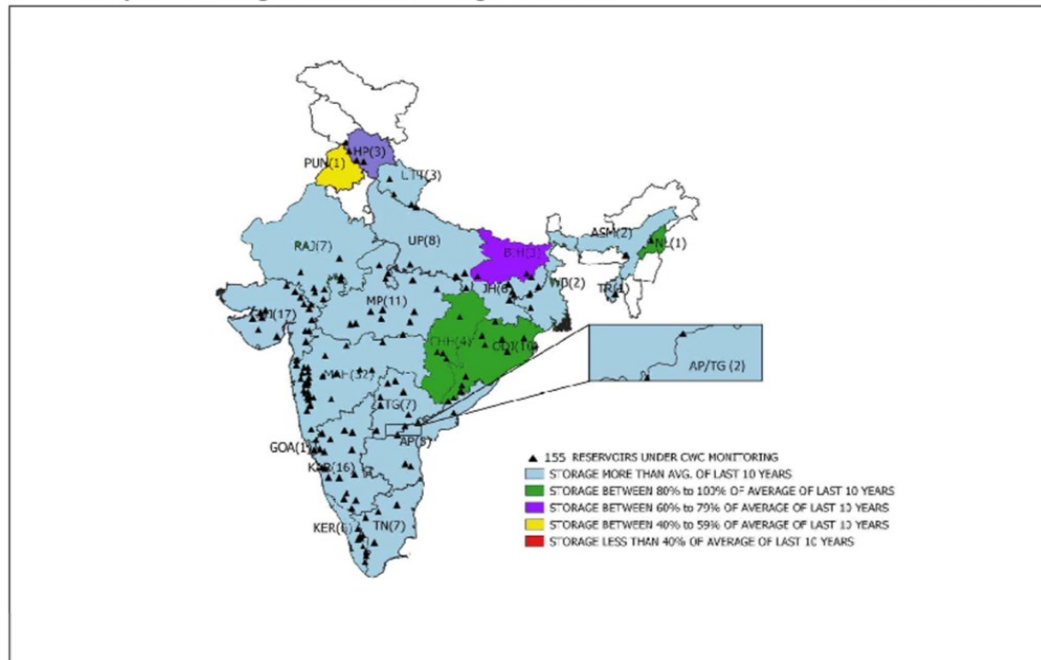

Table 2: For 155 major reservoirs of the country

Period	Storage as % of FRL	Storage as % of Last Year	Storage as % of 10 Year's Average Level
Current Week	64	121	116
Last Week	66	124	120
The percentage to live capacity at FRL was 52% on 30.01.2024, 64% on 30.01.2023, 66% 30.01.2022 and 64% on 30.01.2021.

CROP SOWING STATUS FOR RABI SEASON

Rabi Crops

- As on 31.01.2025 area sown under Rabi crops is 661.03 lakh ha as compared to 651.42 lakh ha during the corresponding period of last year.
- Sowing Status of Wheat: As on 31.01.2025, area of 324.88 lakh ha has been sown under wheat this year against the previous year area of 318.33 lakh ha while the normal area of wheat is 312.35 lakh ha.
- Sowing status of Rapeseed & Mustard: As on 31.01.2025, an area of 89.30 lakh ha area has been sown under mustard against the previous year area of 91.83 lakh ha while the normal area under Mustard is 79.16 lakh ha.
- Sowing status of Jowar: As on 31.01.2025, the area covered under Rabi Jowar is 24.35 lakh. Sowing is almost completed for the current season.

Progress of area coverage under Rabi crops as on 31.01.2025					
(Area in lakh hectare)					
S. No.	Crops	Normal Rabi Area (DES)	Area Sown		Increase (+) / Decrease (-) over 2023-24
			2024-25	2023-24

Total Crops	635.30	661.03	651.42	9.62
Note: *Average of 2022-23 and 2023-24, \$ average (2016-17 to 2020-21) as per DES, #Average of (2018-19 to 2022-23) as per CWWG report.				
Sowing Status: The Rabi sowing is going on smoothly. Sowing window is still available for all crops. Therefore, it is expected to achieve normal area.				

Disclaimer : For Kharif crop wise estimated area, please see advanced estimates released by Ministry of Agriculture and Farmers' Welfare available on UPaG (upag.gov.in)

Rabi Horticulture Crops

Status of Sowing of Onion, Potato and Tomato in major producing States for Rabi Season as on 31 st Jan 2025				
Area in Lakh Hectare				
Crop	Normal Rabi Area Sown in major producing States	Area Sown** during 2024-25	Area Sown in the corresponding period of 2023-24	Increase/Decrease in 2024-25 over 2023-24
(1)	(2)	(3)	(4)	(5)
Onion	10.29	9.62	8.01	1.61
Potato	18.23	19.81	19.49	0.32
Tomato	3.24	2.15	2.35	-0.20
I. Normal Area is the average sown area in last 5 years (2019-20 to 2023-24) II. The share of major producing States¹ is nearly 85% in case of Rabi Potato and Tomato and 90% in case of Rabi onion. III. The total normal Rabi sown area in the Country (including minor producing States) was 11.37 lakh ha for Onion, 21.47 lakh ha for Potato and 5.83 lakh ha for Tomato IV. Sowing of Tomato, Onion and Potato (TOP) crops for the ongoing Rabi season is progressing smoothly. V. The sowing window is still available for all the three crops. Given the good prices prevailing in the market, it is expected to achieve the normal area ** In case of Onion, transplanted area is reported.				

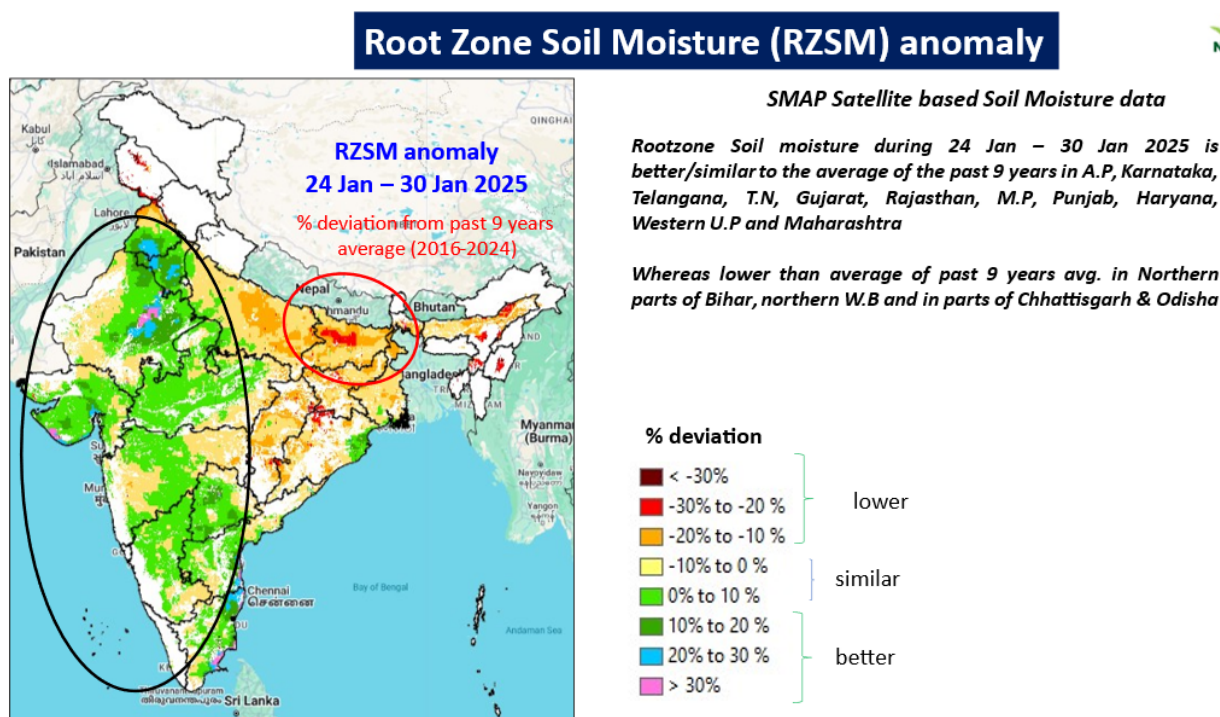

¹Major Producing States for Rabi Onion are: Maharashtra, Madhya Pradesh, Karnataka, Bihar, Rajasthan, Gujarat, Andhra Pradesh, Haryana, Uttar Pradesh, Telangana and Tamil Nadu

Major Producing States for Rabi Potato are: Uttar Pradesh, West Bengal, Bihar, Gujarat, Madhya Pradesh, Punjab and Haryana
Major Producing States for Rabi Tomato are: Andhra Pradesh, Madhya Pradesh, Karnataka, Gujarat, Maharashtra, and Telangana

REMOTE SENSING BASED SOIL MOISTURE OBSERVATION

Soil Moisture Observation

- Soil moisture during 24 Jan- 30 Jan 2025 is better/similar to the average of the past 9 years in A.P, Karnataka, Telangana, Tamil Nadu, Gujarat, Rajasthan, M.P, Punjab, Haryana, Western UP and Maharashtra.
- Whereas lower than average of past 9 years avg. in Northern parts of Bihar, Northern W.B. and in parts of Odisha.

FERTILIZER POSITION:

Availability of fertilizer has been found comfortable. Details of Requirement, Receipt, Availability, Sales and Stock position of Major Fertilizers (Urea, DAP, MOP, Complex and SSP) during Rabi 2024 as on 31/1/25 is given below:

Product	Total Requirement Rabi 2024-25	Total Requirement Rabi 2023-24	Opening stock as on 1.10.24	Opening stock as on 1.10.23	Requirement during January, 2025	Requirement during January, 2024	(Upto 31/1/25)			(upto 31/1/24)		
							Availability	Sales	Closing stock	Availability	Sales	Closing stock
UREA	186.89	185.41	63.02	45.02	31.63	31.82	88.25	45.59	42.66	98.78	35.43	63.36
DAP	52.05	54.99	12.23	21.76	4.20	4.75	13.38	4.07	9.32	18.39	4.23	14.17
MOP	11.95	12.60	7.33	5.06	1.66	1.72	11.23	1.97	9.26	8.37	1.20	7.18
NPK	77.10	63.60	35.94	33.25	10.32	8.61	35.72	12.07	23.65	41.76	8.81	32.95
SSP	36.48	31.24	21.76	16.47	4.41	4.22	20.83	3.46	17.37	17.09	1.98	15.11
TOTAL	364.47	347.84	140.29	121.55	52.22	51.11	169.41	67.16	102.25	184.40	51.64	132.77

- The above data indicates that the availability of Urea, MOP, Complexes and SSP is comfortable.
- In case of DAP, the opening stock of Rabi 2024-25 as compared to the opening stock of Rabi 2023-24 is less by 9.53 LMT
- As on 31st January, 2025 the availability of DAP is 13.38 LMT against the requirement of 4.20 LMT during the ongoing Rabi 2024-25 season.

PEST & DISEASE

- Over all intensity of pests and disease remained below Economic Threshold Level (ETL) and no major pest incidence was recorded.

PRICES

- Mandi prices of Rice (6.51%), Masur (2.68%), Moong (0.96%), and Urad (2.55%) have increased week-on-week and prices of Wheat (1.65%), Gram (2.47%), Groundnut (4.41%) Mustard (2.05%), Soybean (1.84%), Tur (6.25%), Sesamum (2.26%) and Sunflower (13.99%) have decreased week-on-week.
- All India **retail** prices of Soya bean (0.09%) has increased week-on-week and prices of Masur (0.08%), Moong (0.09%), Rice (0.26%), Wheat (0.18%), Urad (0.25%), Gram (0.54%), Tur (1.67%), and Mustard (0.14%) have decreased week-on-week.
- Mandi prices of Tomato has increased by 26.45% and Onion, and Potato have decreased by 8.13% and 11.00% week-on-week, respectively.
- Retail prices of Onion, Potato and Tomato have decreased week-on-week.

PROCUREMENT

- Kharif Marketing Season (KMS) 2024-25 is progressing smoothly in various procuring states and up to 02.02.2025, 416.90 LMT of paddy in terms of Rice has been procured against previous season's corresponding procurement of 397.63 LMT.

All India Procurement of Paddy/Rice during KMS 2024-25 vis-a-vis KMS 2023-24

Up to 02.02.2025 (Figures in LMT)

Crop	Rice Procurement Estimates during KMS 2024-25 (Estimates in terms of Paddy)	Cumulative Paddy procurement during KMS 2024-25	Cumulative Corresponding Paddy procurement in KMS 2023- 24	Cumulative procurement in terms of Rice during KMS 2024- 25 (Percentage of target achieved)	Cumulative Corresponding procurement in terms of Rice in KMS 2023-24
Kharif	495.61 (739.72)	621.13	592.60	416.90 (84.12%)	397.63
