

**CROP WEATHER WATCH
GROUP (CWWG) MEETING
HELD ON 27.01.2025**

**Agricultural Statistics Division
Department of Agriculture & Farmers Welfare
Ministry of Agriculture & Farmers Welfare**

Summary Points of the CWWG meeting:

I. Preliminary Report of area coverage under Rabi season

Rabi crops:

- As on 24.01.2025 area sown under Rabi crops is 655.88 lakh ha as compared to 643.72 lakh ha during the corresponding period of last year.
- Sowing Status of Wheat: As on 24.01.2025, area of 324.38 lakh ha has been sown under wheat this year against the previous year area of 315.63 lakh ha while the normal area of wheat is 312.35 lakh ha.

Rabi Horticulture Crops :

- For Onion, Potato and Tomato, an area sown has been reported by the major producing States, 8.56 lakh ha, 19.80 lakh ha, 2.05 lakh ha as against total sown area of 7.60 lakh ha, 19.37 lakh ha, 2.22 lakh ha, respectively in the last year.

II. Weather:

- Conditions are becoming favourable for cessation of Northeast Monsoon rains over Tamilnadu, Puducherry & Karaikal, Kerala & Mahe and adjoining areas of Coastal Andhra Pradesh & Yanam, Rayalaseema and South Interior Karnataka on today, 27th January 2025.
- Two Western Disturbances in quick succession are likely to affect Western Himalayan Region one from 29th January & second from 01st February, 2025. Under their influence, isolated to scattered rainfall/snowfall activity likely over Western Himalayan region during 29th January- 01st February, 2025 and light isolated rainfall over adjoining plains on 30th January- 01st February, 2025.
- Gradual fall in minimum temperatures by 2-4°C likely over Northwest India during 1st half of the week and no significant change thereafter
- No significant change in minimum temperatures likely over Central India, east India and rest part of the country during next 2 to 3 days and gradual fall by 2-4°C thereafter.
- **Overall, rainfall is likely to be above normal over all the homogeneous regions of India during the week.**

III. Rainfall distribution:

- All India seasonal cumulative (01st Jan 2025 – 27th Jan 2025) rainfall in % departure from its Long Period Average (LPA) was (-)69%, with East & North East-India (-)54%, North-West India (-)78%, Central India (-)96% and South Peninsula (-)0%.

IV. Water Reservoir Status:

- As on 23rd January, 2025, the total live water storage in 155 important reservoirs across the country (monitored by CWC) is 119.505 Billion Cubic Meter, which is 66% of total live storage capacity (180.85 BCM).
- The current year's storage is nearly 124 percent of last year's storage and 120 percent of the average storage of the last ten years during the corresponding period.
- The overall storage position is better than the corresponding period of last year in the country as a whole and is also better than the Normal storage during the corresponding period.

V. Groundwater Levels Scenario

- About 66.6% of the total monitoring wells show depth to water level in the range of 0 to 5 m below ground level and 29.1% show depth to water level in the range of 5 to 10 m below ground level. As per decadal water level fluctuation with a mean (August 2014 to 2023) and August 2024 analysis, 64.9% of monitoring wells (8199) show a rise whereas 35.1% (4435) show a fall in August month.

VI. Seeds:

- For Rabi 2024-25, availability of certified/ quality seed in the country is 337.98 lakh quintals against the requirement of 307.07 lakh quintals indicating an overall surplus of 30.90 lakh quintals of seeds.

VII. Fertilizers:

- Fertilizers position is stated to be comfortable in all products.

VIII. Pests & Diseases:

- Intensity of pests and diseases, at some fields, has been reported to be above Economic Threshold Level for Coconut (Black headed caterpillar) in Tamil Nadu. The Advisory has been issued by the survey team to the farms and regular monitoring is being carried out. The overall intensity of pests and diseases remained below Economic Threshold Level.

Details of each sector have been enclosed at Annex.

Annex

WEATHER OUTLOOK

01st Jan to 22th Jan, 2025:

Legend

Large Excess [60% or more] Excess [20% to 59%] Normal [-19% to 19%] Deficient [-59% to -20%] Large Deficient [-99% to -60%] No Rain [-100%] No Data

NOTES :

- RainFall figures are based on operation data.
- Small figures indicate actual rainfall (mm), while bold figures indicate Normal rainfall (mm).
- Percentage Departures of rainfall are shown in brackets.

- During the week (16 Jan 2024 – 22-01-2025), large deficient rainfall was observed, as compared to Long Period Average (LPA) by 60%. Cumulative seasonal rainfall (01 Jan to 22 Jan 2025) is lower than LPA by 62%.

Rainfall Forecast:

23th Jan – 29th Jan 2025

- Two Western Disturbances in quick succession are likely to affect Western Himalayan Region one from 29th January & second from 01st February, 2025. Under their influence, scattered to fairly widespread rainfall/snowfall activity likely over Western Himalayan region during 29th January- 02nd February, 2025 and isolated to scattered rainfall over adjoining plains on 30th January- 01st February, 2025.
- Under the influence of a easterly wave, light to moderate rainfall very likely at a few places with heavy rainfall at isolated places over Tamil Nadu, Puducherry & Karaikal during 30th January-01st February and over Kerala & Mahe on 31st January.
- Overall, rainfall is likely to be below normal over all the homogeneous regions of India during the week.

30th Jan – 05th Feb 2025

- No active western disturbance is likely to influence northwest India during the week. However, due to feeble Western disturbances, light/moderate isolated to scattered rainfall/snowfall likely over Western Himalayan Region during some days of the week.
- Under the influence of easterly winds from Bay of Bengal, isolated to scattered rainfall likely over South Peninsular & adjoining central India during some days of the week.
- Overall, rainfall is likely to be normal to above normal over most parts of south

- Peninsular and near normal over northeastern states; below normal over rest parts of the country during the week.

Temperature Forecast:

23th Jan – 29th Jan 2025

- Gradual rise in minimum temperatures by 2-3°C likely over West India during next 4-5 days.
- No significant change in minimum temperatures likely over rest parts of the country.
- Dense fog conditions very likely to continue to prevail during night/early morning hours in isolated pockets of Uttarakhand till 28th; Punjab, Haryana, Chandigarh, Delhi till 29th; Uttar Pradesh on 30th & 31st; Odisha till 30th; Bihar till 31st; Gangetic West Bengal during 28th-31st; Assam & Meghalaya till 28th January.

30th Jan – 05th Feb 2025

- Minimum temperatures are likely to be between 4-8°C over many parts of northwest India (excluding Western Himalayan Region) and above 8°C over rest parts of the country during the week.
- Minimum temperatures are likely to be below normal by 1-2°C over East & adjoining central India and near normal over rest parts of the country during the week.

- There is no probability of cold wave conditions over any part of the country. Dense fog is likely to occur in isolated places of Indo Gangetic plains during some to many days of the week.

For more details login to IMD website.

RESERVOIR STORAGE (as on 23rd January, 2025)

- **Current live storage in 155 reservoirs was 123.805 BCM (68%) of total live capacity of 180.85 BCM.**
- 143 reservoirs having storage more than 80% of normal storage.
- 06 reservoirs having storage 51% to 80%.
- 05 reservoirs having storage 31% to 50%.
- 01 reservoir having storage up to 30 %.

Period	Storage as % of FRL	Storage as % of Last Year	Storage as % of 10 Year's Average Level
Current Week	66	124	120
Last Week	68	123	121

The percentage to live capacity at FRL was 53% on 23.01.2024, 66% on 23.01.2023, 68% 23.01.2022 and 67% on 23.01.2021.

Table 2: For 155 major reservoirs of the country

CROP SOWING STATUS FOR RABI SEASON

Rabi Crops

- As on 24.01.2025 area sown under Rabi crops is 655.88 lakh ha as compared to 643.72 lakh ha during the corresponding period of last year.
 - **Sowing Status of Wheat:** As on 24.01.2025, area of 324.38 lakh ha has been sown under wheat this year against the previous year area of 315.63 lakh ha while the normal area of wheat is 312.35 lakh ha.
 - **Sowing status of Rapeseed & Mustard:** As on 24.01.2025, an area of 89.30 lakh ha area has been sown under mustard against the previous year area of 93.73 lakh ha while the normal area under Mustard is 79.16 lakh ha.
 - **Sowing status of Jowar:** As on 24.01.2025, the area covered under Rabi Jowar is 24.35 lakh. Sowing is almost completed for the current season.

Progress of area coverage under Rabi crops as on 24.01.2025					
(Area in lakh hectare)					
S. No.	Crops	Normal Rabi Area (DES)	Area Sown		Increase (+) / Decrease (-) over 2023-24

Note: *Average of 2022-23 and 2023-24, \$ average (2016-17 to 2020-21) as per DES, #Average of					

(2018-19 to 2022-23) as per CWWG report.

Sowing Status: The Rabi sowing is going on smoothly. Sowing window is still available for rice, maize and sunflower (till January). Therefore, it is expected to achieve normal area.

Disclaimer : For Kharif crop wise estimated area, please see advanced estimates released by Ministry of Agriculture and Farmers' Welfare available on UPaG (upag.gov.in)

Rabi Horticulture Crops:

Status of Sowing of Onion, Potato and Tomato in major producing States for Rabi Season as on 24th Jan 2025

Area in Lakh Hectare

Crop	Normal Rabi Area Sown in major producing States	Area Sown** during 2024-25	Area Sown in the corresponding period of 2023-24	Increase/Decrease in 2024-25 over 2023-24
(1)	(2)	(3)	(4)	(5)
Onion	10.29	8.56	7.60	0.96
Potato	18.23	19.80	19.37	0.43
Tomato	3.24	2.05	2.22	-17

- Normal Area is the average sown area in last 5 years (2019-20 to 2023-24)
- The share of major producing States¹ is nearly 85% in case of Rabi Potato and Tomato and 90% in case of Rabi onion.
- The total normal Rabi sown area in the Country (including minor producing States) was 11.37 lakh ha for Onion, 21.47 lakh ha for Potato and 5.83 lakh ha for Tomato
- Sowing of Tomato, Onion and Potato (TOP) crops for the ongoing Rabi season is progressing smoothly.
- The sowing window is still available for all the three crops. Given the good prices prevailing in the market, it is expected to achieve the normal area

**** In case of Onion, transplanted area is reported.**

¹Major Producing States for Rabi Onion are: Maharashtra, Madhya Pradesh, Karnataka, Bihar, Rajasthan, Gujarat, Andhra Pradesh, Haryana, Uttar Pradesh, Telangana and Tamil Nadu

Major Producing States for Rabi Potato are: Uttar Pradesh, West Bengal, Bihar, Gujarat, Madhya Pradesh, Punjab and Haryana

Major Producing States for Rabi Tomato are: Andhra Pradesh, Madhya Pradesh, Karnataka, Gujarat, Maharashtra, and Telangana

REMOTE SENSING BASED SOIL MOISTURE OBSERVATION

Soil Moisture Observation

- Soil moisture during 18 Jan- 23 Jan 2025 is better/similar to the average of the past 9 years in A.P, Karnataka, Telangana, Tamil Nadu, Gujarat, Rajasthan, M.P, Punjab, Haryana, Western UP and Maharashtra.
- Whereas lower than average of past 9 years avg. in Northern parts of Bihar, Northern W.B. and in parts of Odisha.

FERTILIZER POSITION:

Availability of fertilizer has been found comfortable. Details of Requirement, Receipt, Availability, Sales and Stock position of Major Fertilizers (Urea, DAP, MOP, Complex and SSP) during Rabi 2024-25 as on 27.1.2025 is given below:

Pro duct	Total Requir ement Rabi 2024- 25	Total Require ment Rabi 2023- 24	Ope ning stoc k as on 1.10. 24	Ope ning stoc k as on 1.10 .23	Requir ement during January , 2025	Requir ement during January , 2024	(As on 27/1/25)			(As on 31/1/24)		
							Availa bility	Sal es	Clo sing stoc k	Availa bility	Sal es	Clo sing stoc k
URE A	186.89	185.41	63.02	45.02	31.63	31.82	81.86	39.00	42.85	97.32	34.32	63.00
DAP	52.05	54.99	12.23	21.76	4.20	4.75	12.04	3.38	8.66	17.96	4.08	13.88
MO P	11.95	12.60	7.33	5.06	1.66	1.72	10.69	1.62	9.07	8.25	1.15	7.10
NPK	77.10	63.60	35.94	33.25	10.32	8.61	32.83	9.95	22.88	41.04	8.46	32.58
SSP	36.48	31.24	21.76	16.47	4.41	4.22	19.86	2.94	16.92	16.93	1.91	15.02
TOT AL	364.47	347.84	140.29	121.55	52.22	51.11	157.27	56.89	100.37 7	181.50	49.92	131.58

- The above data indicates that the availability of Urea, MOP, Complexes and SSP is comfortable.
- In case of DAP, the opening stock of Rabi 2024-25 as compared to the opening stock of Rabi 2023-24 is less by 9.53 LMT
- As on 27th January, 2025 the availability of DAP is 12.04 LMT against the requirement of 4.20 LMT during the ongoing Rabi 2024-25 season.

PEST & DISEASE

- Overall intensity of pests and diseases remained below Economic Threshold Level (ETL) except:

Crop	State	District/ Sub District/ Village	Source	Pest/ Disease	Intensity	Action Taken
					Area infested/Infected above *ETL (ha)	
Coconut	Tamil Nadu	Thekkupattu, Ambalur (Natrampalli block), Pethakallupalli, Chinnamuthur (Jolarpet block), Uthayendram (Alangayam block) & Byrapalli (Madhanur block)	Surveyed by CIPMC/ State Agri. Deptt.	*Black Headed Caterpillar (<i>Opisina arenosella</i>)	825*	Pest incidence was reported on 06.01.2025. CIPMC Trichy conducted joint survey along with the State Agricultural Department in Thirupathur district of Tamil Nadu” on 06.01.2025 and submitted the report on 08.01.2025. Advisory issued by the survey team to the farms. Regular awareness campaign organized by the State Government in affected areas. Regular monitoring is being carried out by all field functionaries as follow up action.

RABI HORTICULTURE (As on 24th Jan, 2025)

Onion: 8.56 lakh ha area has been sown in 2024-25 as compared to all India total area sown of 7.60 lakh ha in 2023-24.

Potato: 19.80 lakh ha area has been sown in 2024-25 as compared to all India total area sown of 19.37 lakh ha in 2023-24.

Tomato: 2.05 lakh ha area has been sown in 2024-25 as compared to all India total area sown of 2.22 lakh ha in 2023-24.

PRICES

- Mandi prices of Rice (1.85%), Wheat (0.53%), Tur (2.26%), Moong (5.33%), and Soybean (0.61%) have increased week-on-week and prices of Gram (5.26%), Masur (2.44%), Urad (7.98%), Groundnut (1.97%) Mustard (1.87%), Sesamum (6.58%) and Sunflower (9.96%) have decreased week-on-week.
- All India **retail** prices of Rice (1.03%), Wheat (1.08%) Masur (0.06%), Moong (0.06%), and Soya bean (0.37%) increased week-on-week and prices of Tur (1.44%), Gram (0.16%), Urad (0.19%) and Mustard (0.43%) have decreased week-on-week.
- Mandi prices of Onion has increased by 8.81% and Potato, and Tomato have decreased by 7.90% and 16.29% week-on-week respectively.
- Retail prices of Onion, Potato and Tomato have decreased week-on-week

PROCUREMENT

- Kharif Marketing Season (KMS) 2024-25 is progressing smoothly in various procuring states and up to 26.01.2025, **399.33** LMT of paddy in terms of Rice has been procured against previous season's corresponding procurement of **410.76** LMT.
- Procurement period in Rabi Marketing Season (RMS) 2024-25 is over in all procuring states and a quantity of 266.05 LMT of wheat has been procured whereas procurement in the previous marketing season (RMS 2023-24) was 261.97 LMT.
- Actual stock of Rice & Wheat together was 489.74 LMT against buffer norm of 307.70 LMT.

All India Procurement of Paddy/Rice during KMS 2024-25 vis-a-vis KMS 2023-24
Up to 26.01.2025 (Figures in LMT)

Crop	Rice Procurement Estimates during KMS 2024-25 (Estimates in terms of Paddy)	Cumulative Paddy procurement during KMS 2024-25	Cumulative Corresponding Paddy procurement in KMS 2023-24	Cumulative procurement in terms of Rice during KMS 2024-25 (Percentage of target achieved)	Cumulative Corresponding procurement in terms of Rice in KMS 2023-24
Kharif	495.61 (739.72)	595.16	612.54	399.33 (80.57%)	410.76
